GeoSustain | Review case report

Generated UTC: 2026-10-27T00:00:00.000Z

Case: 1

Case version: 4

Review status: verified

Current analysis: 2

Submitted: 2026-10-27T17:24:48.057791+08:00

Updated: 2026-10-27T17:24:48.843712+08:00

Recorded evidence reference

Farm: Peñafrancia synthetic parcel

Place: Unavailable

Analyzed: 2026-10-27T17:24:46.444083+08:00

Analysis mode: preliminary_environmental

Recorded boundary version: 1

Current farm version: 1

Geometry matches current farm: true

Recorded geometry SHA-256: 744d22e2617c7cd866ec73386149bc54bf0de1b63886c9f7e16051e4986b0e84

This report records review decisions and evidence references. Open the linked analysis in GeoSustain for the full saved measurements, data provenance and limitations. An accepted review does not certify missing measurements. NPK and soil pH methods are outside this workflow change.

Decision and advisory timeline

submitted | 2026-10-27T17:24:40.443427+08:00: Synthetic farmer

Analysis: 1

needs information | 2026-10-27T17:24:43.537720+08:00: Synthetic reviewer 1

Analysis: 1

Reason: boundary_issue

Explanation: Confirm the parcel outline.

GeoSustain | Review case report

resubmitted | 2026-10-27T17:24:48.057791+08:00: Synthetic farmer

Analysis: 2

Explanation: Corrected outline, new analysis.

verified | 2026-10-27T17:24:48.843712+08:00: Synthetic reviewer 1

Analysis: 2

Explanation: Reviewed available preliminary evidence.

Evidence checklist: coverage=true; geometry=true; reference=true; limitations=true

advisory note | 2026-10-27: Synthetic reviewer

Analysis: 42

Explanation: SYNTHETIC PAGINATION CHECK 0. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements.

advisory note | 2026-10-27: Synthetic reviewer

Analysis: 42

Explanation: SYNTHETIC PAGINATION CHECK 1. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements.

advisory note | 2026-10-27: Synthetic reviewer

Analysis: 42

Explanation: SYNTHETIC PAGINATION CHECK 2. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements.

advisory note | 2026-10-27: Synthetic reviewer

Analysis: 42

Explanation: SYNTHETIC PAGINATION CHECK 3. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements.

advisory note | 2026-10-27: Synthetic reviewer

Analysis: 42

Explanation: SYNTHETIC PAGINATION CHECK 4. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements. Review the recorded boundary and unavailable measurements.
