Reviewed in the last 7 days: Unavailable

Preliminary cases: Unavailable

Due follow-up tasks: Unavailable

Distinct farms: 1

Oldest pending submission: Unavailable

Latest parcel area sum (ha; may overlap): 1

Farms with recorded area: Unavailable

Farms without recorded area: Unavailable

Interpretation

Counts describe submitted project cases and review activity. Repeated analyses are not additional farms. Parcel area sums may overlap and are not the union of farm boundaries. Recommendation frequencies do not measure actual planting, crop production or yield.
